

Duration: Half Day
Course Code: SSH02

Course Description:

Asbestos awareness training is essential for employees whose work holds the potential to expose them to asbestos. Regulation 10 of the Control of Asbestos Regulations 2012 (CAR 2012) puts a requirement on employers to ensure that their staff have undergone suitable asbestos awareness training so that they are aware of the potential dangers they may face and also the procedures they must follow in the event they are working in the vicinity of asbestos containing materials (ACMs). Compliance with CAR 2012 is now a legal requirement. Failure to comply can prevent gaining new contracts and may incur a fine.

Who Should Attend Asbestos Awareness Training?

- General Maintenance Staff
- Electricians, Plumbers & Gas Fitters
- Painters & Decorators
- Construction & Demolition Workers
- Joiners, Plasterers and Roofers
- Computing & Ventilation Engineers
- Architects & Building Surveyors
- Fire & Burglar Alarm Installers

Benefits From Attending The Training:

- It is estimated that over two-million workplaces contain asbestos, which remains the single biggest cause of work related deaths in the UK. This course enables those responsible for the building, repair and maintenance of commercial properties to identify and deal with asbestos, and meet their legal 'Duty to Manage'.

Course Contents:

- Properties of asbestos and its effects on health
- Types of products containing asbestos
- How exposure can occur and preventative controls
- Safe working practices and control measures
- Emergency procedures
- Appropriate PPE
