

## Course Description:

LearnKey's new Dreamweaver CC course provides an intuitive and visual interface for users to learn about the website creating and editing capabilities of Dreamweaver CC. Join LearnKey expert Chad Chelius as he teaches you how to effectively use the new Dreamweaver CC software. He will also teach you the new tools and features found in Dreamweaver CC such as: enhanced fluid grid layout, CSS designer panel, and more.

## Course Prerequisites

This course assumes that delegates have completed the Introductory level of PCS' Adobe Dreamweaver course, or at least have the equivalent Dreamweaver knowledge and experience.
